

IOBC/wprs Bulletin Vol. 28(10) 2005

Working Group "Breeding for plant resistance to pests and diseases", Proceedings of the meeting at Białowieża (Poland), September 15-19, 2004. Edited by: Nicholas E. Birch and Bogumil Leszczynski. ISBN 92-9067-182-1 [xvi + 137 pp.]

Studies on plant resistance to nematode and arthropod pests in Poland: A historical perspective. <i>Z. T. Dabrowski</i>	3
Differential expression of genes in wheat, <i>Triticum aestivum</i> L. controlling resistance to the Russian wheat aphid, <i>Diuraphis noxia</i> (Mordvilko). <i>C. M. Smith, E. Boyko & S. Starkey</i>	11
Breeding for resistance to the large raspberry aphid: An update on durability of current genes and future prospects. <i>A.N.E. Birch, S.C. Gordon, R. Brennan & A.T. Jones</i>	21
Apple tree egg laying resistance against codling moth (<i>Cydia pomonella</i>) Lepidoptera Tortricidae and implication of plant surface metabolites. <i>N. Lombarkia & S. Derridj</i>	23
Mechanisms involved in induced resistance with extracts of <i>Reynoutria sachalinensis</i> . <i>Annegret Schmitt</i>	27
Effect of natural monoterpenes on the behaviour of the peach potato aphid <i>Myzus persicae</i> . <i>B. Gabrys, K. Dancewicz, A Halarewicz-Pacan & E. Janusz</i>	29
The role of jasmonates in defense reactions in plants under biotic stresses. <i>M. Saniewski, A. Saniewska & H. Urbanek</i>	35
Saponin as a source of alfalfa resistance towards pea aphid, <i>Acyrtosiphon pisum</i> . <i>S. Golawska, B. Leszczynski & Z. Staszewski</i>	45
Assessment of partial resistance to anthracnose in water yam (<i>D. alata</i>) using tissue culture generated whole plant. <i>T. J. Onyeka, D. Petro, G. Jacqua, S. Etienne, S. Rubens, P. Renac & J. Gelabale</i>	51
Full modification of the coding sequence for enhancing potato expression of insect control protein cry3a gene and prediction of its expression in plants using yeast transformation. <i>Salehi Jozani G.R., Goldenkova I. V. & Piruzian E. S.</i>	59
The art of making things simple: Insect resistance tests and their practical implementation. <i>Susanne Sütterlin</i>	61
Some biochemical and physiological aspects of cucumber resistance to spider mites induced by plant growth promoting rhizobacteria (PGPR). <i>A. Tomczyk</i>	63
RAPD analysis of Russian and Polish isolates of <i>Sclerotinia sclerotiorum</i> from crucifers. <i>Witold Irzykowski, Viktoria Soldatova, Elena Gasich, Nadiezda Razgulaeva & Malgorzata Jędryczka</i>	69
Molecular aspects of potato resistance to Colorado potato beetles - a correlation with the sesquiterpene composition of ten potato varieties. <i>J. Szafranek, B. Szafranek, M. Pawińska & K. Chrapkowska</i>	83
Prospects of native entomogenous fungus <i>Metarhizium anisopliae</i> var <i>major</i> for integrated control of territe pests of tea in north east India. <i>S. Debnath</i>	91
Effects of host plant on infection of aphids by the fungus <i>Pandora neoaphidis</i> . <i>P.A. Shah, C. Tkaczuk, S.J. Clark & J.K. Pell</i>	93
Pest resistant GM crops: A chemical ecology viewpoint. <i>A. Nicholas E. Birch</i>	95
Breeding for resistance: An option not only for growers and industry, but also for policy makers?	

<i>Susanne Sütterlin</i>	97
The level of antitrypsin activity in winter triticale infested by grain aphid (<i>Sitobion avenae</i>) <i>L. Sprawka, A. P. Ciepiela, G. Chrzanowski & E. Dębkowska</i>	101
The participation of polyamines in mechanisms of winter triticale resistance to grain aphid (<i>Sitobion avenae</i> F.). <i>C. Sempruch & A. P. Ciepiela</i>	107
Polyphenol oxidase activity and its participation in spring triticale resistance to grain aphid (<i>Sitobion avenae</i>) <i>G. Chrzanowski, A. P. Ciepiela & I. Sprawka</i>	113
Does red pepper contain an insecticidal compound for Colorado beetle? <i>E. Tęgowska, B. Grajpel & B. Piechowicz</i>	121
Combining ability of resistance of yellow rust in some wheat varieties. <i>M.R. Narouirad, M.Moghaddam, M.Farzanju & H.Rostami</i>	129
Exploitation of phenotypic expression of developmental and quantitative trait(s) towards seedlessness as a major genetic potential for bollworm avoidance in cotton (<i>Gossypium</i> spp). <i>R.G. Satpute & G.K. Satpute</i>	133
